# Layflat Hose

JAYMAC Industrial Hose & Accessories

## Layflat Delivery Hose

Applications: Conveyance and discharge of water etc. Particularly suitable for irrigation and water supply applications. However, can also be used in general industries, civil and construction engineering.

Pressures: Values given are based on the short term burst pressure of the hose at 20ºC based on a 3:1 safety factor.

This product is only suitable for open ended discharge applications. Pressure ratings are based on discharge pressure from the pump unit.

Note: Any increase in temperature above 20ºC will result in a decline in working pressure values.

Chemical Resistance: Resistant to the oils and greases as above. These hoses are not suitable for use with benzene, petrol, spirits, xylol, toluol or solvents containing aromatics. For more detailed information please contact technical sales.

Temperature Range: -15ºC to +55ºC
