

Brass Compression Fittings, Imperial

Wade

Wade couplings consistently produce cost effective, reliable, leak-tight joints.

They can be found in general use throughout the following industries: hydraulic, pneumatic, automotive, locomotive, LPG, oil and gas, power generation, air conditioning, heating and ventilation, and also for applications where there is a need for the added safety provided by an engineering fitting.

All Wade compression fittings are manufactured to BS 2051 Part 2 and from materials to all of the following standards:

BAR Parts: BS 2874 CZ121
Stampings: BS 2872 CZ122
Castings: BS 1400 LG2
Copper Rings: BS 2871 Part 2 C106

Wade compression fittings are suitable for use with copper, brass, Bundy, nylon, polythene and PVC-coated copper tube.

The following fittings are only part of the Wade range; the full range consists of metric, 4-28mm, and imperial, 1/8"-1.1/4", with thread options in API/NPT, BSPT, BSPP and metric forms.

NOTE: for details of fittings not listed, please speak to our technical department.
