

# Industrial Vacuum Hoses

## SUPERFLEX PVC 372

Lightweight suction and blast hose made from high-grade, yarn-reinforced PVC with PVC-coated spring steel wire helix.

Applications: industrial/domestic vacuum cleaners, air movement, drier and weld fume extraction. Suitable for dust, powders, gases and liquids.

- Good resistance to chemicals, alkalis and acids
- Wire helix can be earthen
- Highly flexible

Use clamp type 208 (refer to page 1413).

 Working Temperature:  
0°C to +85°C

## EVA 373 AS, BLACK

High quality, durable black suction hose made from anti-static EVA.

Applications: industrial/domestic vacuum cleaners and blowing machines for cavity wall insulation.

- Good resistance to alkalis and acids
- Floatable
- Crush-proof
- Permanently anti-static wall, <10<sup>11</sup>Ω

Use clamp type 208 (refer to page 1413).

 Working Temperature:  
-45°C to +65°C
