

# Automatic Lubricant Dispensers

Page Tech Sheet60409

## Multi-point Ultimate Luber™ Series

The Ultimate Luber is a powerful, motor-driven automatic lubricator which is refillable using a standard grease gun. motor delivers grease to a fixed displacement pump which produces pressures up to 100 bar. This feed lines and to cycle progressive distributors to feed several bearings consecutively. When a dispensing cycle is selected, programmed intervals. During each cycle, it dispenses approximately 1.25cc of grease. Neither temperature

Its microprocessor controlled, energy-efficient power allows the Ultimate Luber to drive lubricant through long the Ultimate Luber will activate at nor altitude will affect the lubricant output.

### Features

- Powerful, motor-driven lubricator
- Fully self-contained lubricator with replaceable battery pack
- Refillable using a standard grease gun (no tools needed)
- Available in three sizes: 125cc, 250cc or 500cc
- Multiple settings to empty from 15 days to 2 years
- LEDs indicate correct operation, low battery and low temperature
- Single or multi-point configuration
- Capable of servicing single-point applications up to 30ft (9m) away and multi-point applications up to 20ft (6m) away
- Optional remote power/remote control versions available
- Suitable for indoor and outdoor use

### Advantages

- Powerful automatic lubricator at 100 bar
- Refillable on site with a grease gun
- Feed up to 12 points from single unit
- Incredibly durable; lasts many refills
- Fill with any brand of grease
- No direct competition in pressure and refillability available

Working Temperature: -40°C to +55°C Maximum Working Pressure: 100 bar

### Motor-driven Lubricant Dispenser, Empty, Refillable
