

Aluminium Ring Main System

Page Tech Sheet 10164

4th Generation

Connection Technology

AIRpipe, the 4th generation of pipe connection design uses pipe clamps, surface sealing ring and convex pipe as whole parts, which achieves a quick fit with excellent sealing. Compared to an O-type sealing ring, this AIRpipe 4th generation of sealing ring upgrades to surface contact sealing; performance is more reliable and life time doubled compared to line type sealing

Working Temperature:
-20°C to +70°C

Maximum Working Pressure:
13 bar

Conforms to PED 2014/68/EU
(replacing 97/23/EC) and
certified by TÜV Rheinland.

Female Straight Connectors

Aluminium 20mm-50mm, BSPP

0512	OD mm		£
