

# LINE Series Direct Drive & Belt Drive Piston Compressors

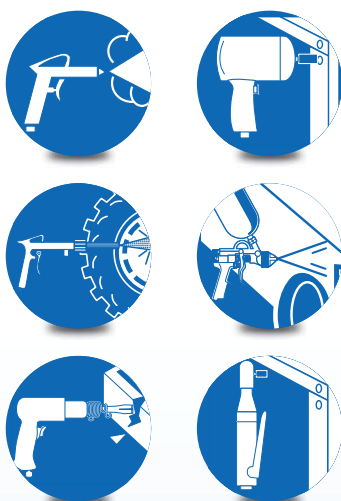

## Professional and compact performance with extra user-friendly benefits.

ABAC direct drive units offer a user friendly, reliable and compact design.

ABAC belt driven units are now equipped with the new and efficient slower running pump, giving noticeable noise reductions and much lower running temperatures. The new belt guard design improves cooling air flow over the pump, further increasing reliability.

### Applications

### Efficiency

Unique design belt guard with a **more efficient** air flow over the pump, designed to **improve cooling**

### Reliability

Highly reliable thanks to our **new pump** running at a much **lower speed** reducing wear

### User friendly

Significantly **lower noise levels** due to **slower running**

### Blue Cap

Signature of the new and **unique ABAC pump**
