Kiowa Roll Mega  
Cable Reel

The Kiowa Roll Mega cable reel offers exceptional quality and value; used for storage of electrical cable. Their compact size makes them ideal for workshops, garages & assembly lines where space is limited. Units are supplied ready for fitting with main cable assembly and inlet cable as standard.

These reels are constructed in UV stabilised Polypropylene for long trouble free service.

Supplied with integral wall / overhead mounting bracket. Cable supplied: 35m x 3 Core x 1.5mm<sup>2</sup> including UK plug and trailing socket. Suitable for use with power tools, low voltage inspection lamps and other electrical appliances.

Applications
