

Series 20: Hose Reels

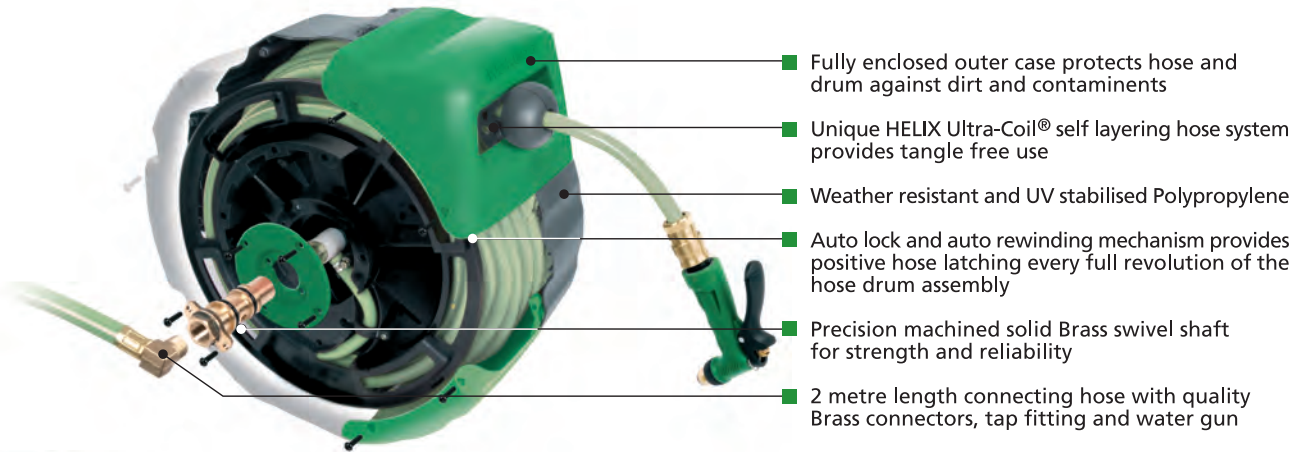

SERIES 20 WATER

Water 20 Metre

- Heavy duty water hose
- Hose I.D. 11.5mm (1/2")
- Hose O.D. 16mm (5/8")
- Max working pressure 150 PSI (10 BAR)
- Hose outlet Brass connectors, tap fittings and water spray gun

HELIX ULTRA-COIL®

- Fully enclosed outer case protects hose and drum against dirt and contaminants
- Unique HELIX Ultra-Coil® self layering hose system provides tangle free use
- Weather resistant and UV stabilised Polypropylene
- Auto lock and auto rewinding mechanism provides positive hose latching every full revolution of the hose drum assembly
- Precision machined solid Brass swivel shaft for strength and reliability
- 2 metre length connecting hose with quality Brass connectors, tap fitting and water gun

Self layering hose system

Fixed or swivel mount

2 metre connecting hose

Nakoda™ Series hose reels are heavy duty domestic reels, suitable for use with cold water. Designed in Australia these reels are supplied with the Helix Ultra Coil® self-layering hose system; enabling the user to rewind the hose back onto the reel with no difficulty whilst alleviating kinking and tangling and dirty hands.

The auto lock and auto rewind make the hose easy to use, letting the hose stop at the required length and enabling a safe and easy rewind back onto the reel restricting damage to the hose.

The hose reel can be installed on to a wall and has a fixed or pivoting wall bracket (180°). The pivoting bracket also means that the reel can be stored flat, safely and neatly against the wall when not in use.

Constructed in UV stabilised Polypropylene, the Nakoda™ Series reel is tested repeatedly to ensure reliability and the highest quality. Supplied with a 2 year warranty, this reel is perfect for domestic use.

The two metre connecting hose is supplied as standard giving a complete installation package*.

*Fixings not included.

Nakoda™ Series Reel Product features and benefits

- **Designed in Australia**
- **High Impact and weather resistant UV stabilised Polypropylene construction**
- **Fully enclosed outer case protects hose and inner drum against dirt and other contaminants**
- **Auto lock and auto rewind mechanism provides positive latching every full revolution of the hose inner drum**
- **Reinforced PVC braided hose with an additional 2 metre connecting hose**
- **All units as standard include the Helix Ultra Coil® Technology self-layering hose system - for neat and tidy storage**
- **Complete with fixed or 180° pivoting wall bracket**
Covers a larger span in the working area for increased control and ease of use
- **Quality Brass hose connectors, tap fittings and water spray gun included**
- **Lightweight material construction (Includes hose and pivoting wall bracket)**
- **Fold flat carry handle convenient for moving about and installation and removal from a static position**
- **Solid wall installation**
- **2 Year manufacturer's warranty**
(Excludes hose assemblies and seals)
